

10 FEET ISO DECONTAMINATION CONTAINER

**OPERATIONAL READINESS
WITHIN 15 MINUTES**

**1 PERSON DEPLOYMENT
2 PEOPLE OPERATION**

COMMERCIAL DESCRIPTION

The UTILIS «Decontamination Cube» rapid deploy system offers a new approach to achieving initial decontamination capability. The compact system footprint ensures it can be kept in readiness and allows deployment to operational readiness in just 15 minutes by a single person. The system can be operated using only two monitoring personnel.

TECHNICAL DESCRIPTION

- ▶ Container divided into 5 areas :
 - Undressing area
 - Shower area (2 able-bodied lines or 1 stretcher line)
 - Drying / dressing area
 - Technical / utilities area
 - Accessories and consumables storage area

- ▶ Passage from 2 lines to 1 line disabled in 5 minutes (without tool)
 - Mains network connection or full autonomy
 - Hygienic swing doors with vision windows
 - Flat, easy-clean surfaces throughout
 - Programmable automaton for individual management of each line
 - Stainless steel water recovery sump with resin duckboards
 - Fully insulated (floor included)
 - Hand shower with wall support
 - Stretcher guide rail
 - Two 3m3 bladder tanks with hoses
 - Two waste bin supports
 - Two evacuation ports for personal effects within undressing cubicle

OPERATION

An undressing area is located at the front of the container, with flexible separation and outer walls deployed from the solid overhead panel. The decontamination cycle is activated automatically when the user passes through the swing doors, with onward passage to the rinse shower controlled by indicator lights.

HOT WATER PRODUCTION

In the standard version, the hot water is provided by an instantaneous water heater with connectivity to existing electrical mains (57 kW).

AVAILABLE OPTIONS :

- ▶ Fuel-fired water heater for autonomous operation
- ▶ Connector and temperature mixer for direct connection to building hot water system
- ▶ Portable warm air heater
- ▶ Anti-intrusion security bar system

LOGISTICS

- ▶ Outdoor storage with frost protection
- ▶ Handling by sling or fork passage
- ▶ Handling with 2 people with wheel kit option (usable only on horizontal and smooth floor)
