

SM SHELTERS

SET-UP IN LESS THAN 3 MINUTES

- 30°C

+ 70°C

COMMERCIAL DESCRIPTION

The SM tent is a small tactical shelter, often used as an entrance vestibule, as a liaison interface or as a corridor.

It also possible to connect it to operational vehicles thanks to a connection flap.

TECHNICAL DESCRIPTION

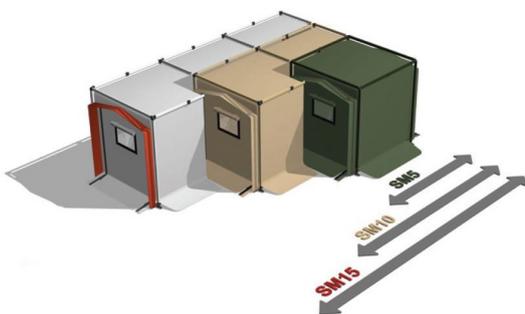

- ▶ Standard configuration :
 - Colour : white, NATO green or sand
 - One 1,8m-wide door on each gable with a zip system
 - Windows with transparent welded layer, external or internal shutter and mosquito net
 - Ground sheet welded on sides or attached by Velcro + straps on gable
 - Specific design of the ground sheet to exclude water intrusion
 - Possibility to suspend an inner liner
 - Ceiling net under the roof
 - Connection flaps all around each of the doors for interconnection of tents in H, I, T or X configurations
 - 2 duct openings for ducts or cables
 - 1 tightness flap for tent connection
 - Staking kit

- ▶ Available dimensions :

- SM2 : 2 m²
- SM5 : 5 m²
- SM10 : 10 m²

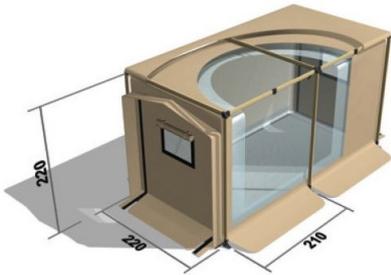

- ▶ Storage :

Packed in PVC bags with 8 handles

HIGH QUALITY MANUFACTURING

The SM tents are made of resistant and quality materials.

- ▶ Bars and mechanical parts made from anodized or epoxy coated aluminium alloy.
Axles and foot plates made from stainless steel.
Eyelets, toggles, hooks and screws made from hot-dip galvanized steel.
- ▶ Main canvas manufactured from 500 g/m² polyester material coated with PVC from both sides.
All shelters use high frequency welding techniques.
